# Coravin – By the Glass

The CORAVIN™ Wine System gives us the freedom to pour and enjoy a glass of wine from any bottle at any time. By inserting a medical grade needle through the cork and injecting 99.9% pure argon gas, the bottle is pressurized and wine is being pushed out. When finished, the needle is pulled out and the cork reseals due to its elasticity, no air has gone into the bottle and the remaining wine can be preserved and continue to age.

Coravin™ also has developed their own screw caps, designed with a silicone membrane. The screw cap reseals itself after being accessed using a Coravin™ Wine System, just like a natural cork would. Below is our selection of wines we would like to showcase you with our Coravin™ system.
